

REQUEST FOR QUALIFICATIONS
Appomattox River Water Authority
INPLANT CAPITAL UPGRADE

South Chesterfield, Virginia

Contractor qualifications for the referenced project will be received in the Office of the Appomattox River Water Authority (ARWA), 21300 Chesdin Road, South Chesterfield, Virginia 23803 until 2:00 P.M., local prevailing time, Wednesday, February 28, 2018.

The purpose of this Request for Qualifications ("RFQ") is to obtain applications for prequalification ("Qualification Statements") from interested General Contractor-Mechanical and Electrical Contractor firms ("Contractors") so that ARWA may establish a list of Contractors prequalified to submit bids for the construction of the In-Plant Capital Upgrade Project (the "Project").

ARWA will employ a two-step procurement procedure for selection and award of a construction contract to a Contractor for the Project. Step One includes the submission and evaluation of Qualification Statements pursuant to this RFQ to determine those prospective bidders with capabilities and programs that meet the minimum requirements for this Project. ARWA will conduct the prequalification as required by Virginia Code § 2.2-4317(B). Step Two includes the solicitation of bids submitted by bidders prequalified in Step One. If the Contractor is not prequalified in Step One, the Contractor will not be allowed to submit a bid for this Project.

The Project includes construction of the following work:

- Demolition of existing Raw Water and Finished Water Pumping Equipment,
- Demolition of existing Emergency Generator,
- Demolition of three Domestic Water Pumps,
- Installation of four New 500 HP Raw Water Vertical Turbine Pumps,
- Installation of four New 300 HP Finished Water Vertical Turbine Pumps,
- Installation of three New 20 HP Domestic Water Vertical Turbine Pumps,
- Installation of one New 250 HP Backwash Water Vertical Turbine Pump,
- Installation of two New 20 HP Domestic Water Submersible Vertical Turbine Pumps,
- Construction of New Precast Concrete VFD Building,
- Installation of 48-inch Mag Meter,
- Demolition and installation of Chemical Piping,
- Demolition of existing 480V and 4160V Electric Equipment, including motor control centers, switchgears, and motors,
- Modification of 2,000 amp, 4160V Switchgear,
- Modification of 5 kV, 4160V Switchgear,
- Installation of New 3,200 amp, 480V Switchgear and Electrical Equipment,
- Installation of New 3MW Emergency Generator,
- Building HVAC and Electrical Up-fit, and
- Incidental related work.

The complete Request for Qualifications is available upon request from WW Associates, Inc., PO Box 4119, Lynchburg, VA 24502, Phone: 434-316-6080.

A mandatory pre-qualification conference will be held at 10:00 AM, local prevailing time Thursday, February 8, 2018, in the Office of the Appomattox River Water Authority, 21300 Chesdin Road, South Chesterfield, Virginia 23803. The bidding General Contractor-Mechanical and the Electrical Contractor must be present at the meeting to be eligible to submit qualifications for the project.

Bidders must be licensed as Contractors in the Commonwealth of Virginia in accordance with Title 54.1, Chapter 11 of the Code of Virginia (1950) as amended.

Robert C. Wichser, Ph.D, P.E., Executive Director
Appomattox River Water Authority
